Do You Know About The New Abortion Agenda?

Leaders in Washington are taking aim at unborn children and their mothers with a radical proabortion agenda which would:

- * enact the FOCA* -- a bill that would invalidate virtually all state and federal laws limiting abortion, including parental notification laws, and make partial-birth abortion legal again
- * require taxpayers to fund abortion for any reason, both at home and abroad.
- * force all hospitals and healthcare professionals to provide abortion
- * fund organizations that perform and promote abortion
- * force employer health insurance plans to cover abortion

This is not the change Nevadans want.

*FOCA is the so-called "Freedom of Choice Act"
